

## ECZEMA TOTALLY COVERED HIS FACE

When a Baby—Hair All Came Out—Always Scratching—Mother Got Cuticura and He was Cured After 3 Years of Disease.

"My son was about four months old when he was taken with dreadful eczema. I had four different doctors but they could not help him. The hair all came out and his face was totally covered. His eyes were shut and he thought he would go blind. His limbs and body were also affected. He was always scratching. I had to keep his little hands tied down and he seemed to have a great deal of pain. We did not know what to do. I used to get sick handling him, from the way the corruption was always running. But I got some Cuticura Soap and Ointment and in a week or ten days I could see the eruption drying up and before long he was cured, after about three years of the terrible disease. Now he is nineteen years old and has not a sign of the old trouble. You see I learned to save three-quarters of the doctors' bills by using Cuticura Soap and Ointment and I will recommend either to any one and advise them to use them and receive a safe, speedy cure. Mrs. Catherine Mocklin, Dock St., Royallton, Pa., Feb. 21, 1910."

## TO EXAMINE THE CHILDREN'S EYES

The board of education met last night for a short session, at which there was little business done. The financial report was read, after which the board considered the matter of the bids for the transportation of the pupils attending Mount Fort school from the Broom Bench and addition districts. The matter was laid on the table.

The water question at the Five Points school was brought up but was quickly referred to the committee to confer with the water commission. Dr. Coulter recommended the engagement of the services of a medical examiner which would examine the eyes of the children of the entire school system each year. Superintendent Hills advocated the suggestion saying that he such a recommendation in mind, intending to bring it before the board at a time after the opening of the school. The superintendent urged that the doctor's recommendation be considered favorably, saying that defective eyesight, particularly among the younger pupils, was proving a serious drawback to the proper education of many.

He declared that children would fall behind in their studies, act stupidly in school, and be classed as slow, when the cause of their falling back really could be laid to poor eyesight, or minor trouble in the child's vision. He asserted that a child was often classed as stupid by teachers, and parents, when an eye specialist might quickly remove the cause of their slow learning and make of them bright scholars.

Dr. Coulter declared that the school systems of Salt Lake and at Logan, and, in fact, in almost every part of the country, had a medical assistant on the payroll and that the results had been more than satisfactory. A possible salary of \$1,000 or \$1,200 was mentioned, and the engagement of some young physician who could continue his own practice was suggested.

The board desired time to consider the matter, however and further discussion was ended by the suggestion that it be taken up at next week's meeting.

## UNION PACIFIC ADVERTISES OGDEN

The Union Pacific railroad has just issued a booklet of travel which is devoted entirely to Utah and its natural attractions, and giving Ogden and Ogden Canyon the most prominent place in the descriptions.

There are numerous half tones, of famous historic points in this state interesting cuts of Salt Lake City, its temple, statues, etc., and some beautiful pictures of Ogden canyon and its scenic wonders. The first portion of the booklet says of this city and the canyon:

"After the canyon comes Ogden, the second city of Utah—the meeting place of the Union and Southern Pacific and Oregon Short Line railroads. The city dates its history back to the time of the completion of the first trans-continental railroad, and lies half on the mountain side and half in the valley at the junction of the Weber and Ogden rivers.

Ogden Canyon, from almost the center of the city, is Ogden canyon through which for fifteen miles, a broad boulevard follows the windings of the roaring river. This canyon is the most beautiful in Utah. At various altitudes are resorts where camping, boating, fishing and hunting are enjoyed, and where the hotels are famed for their chicken dinners and the cookery of trout fresh from the stream. Automobiles go the whole length of this boulevard, and electric cars leave the Union depot every twenty minutes for the canyon. It is only a travel-hour from Ogden to Salt Lake and the pictures of rural home-life and fertile fields along the way are framed by the mountains and the sea."

## "TOY" SMITH GETS 18 YEARS

"Toy" Smith, the negro who attempted the murder of Arthur Mohlman last April, appeared in the district court yesterday afternoon to hear the court's decision in the matter of punishment for his crime. The ne-

gro, who is credited with being a confirmed "hop-head," changed his plea of "not guilty" to "guilty." Judge Howell apparently agreed on this point, and handed down a sentence of 18 years in the state penitentiary.

Lawrence Gets Two Years.

Harry Lawrence, who attempted the burglary of the Cottage hotel last May, was sentenced to two years in the penitentiary yesterday afternoon in Judge Howell's court. The prisoner at the last moment changed his plea from "not guilty" to "guilty."

## DEMONSTRATIONS OF GOOD ROADS

During the meeting of the Good Roads convention, in this city September 23 to 29, a practical demonstration of good roads building will be given for the benefit of the delegates attending, the latter comprising representative men of all the Western states with the lone exception of California.

One mile of macadamized road will be prepared in the different stages of completion, showing how a "model" road should be built, and explaining the best accepted method in each stage of the work. Part of the mile road will be simply graded, another portion will be graded and laid in stone, and so on in simple steps, until the finished road is shown in a small section.

The sample mile will be laid one mile this side of Riverside mill race, and the Salt Lake and Ogden Auto Clubs will tender the use of their machines for the purpose of taking the delegates to the spot to view the work.

A meeting of people interested in the work of road building, especially the members of the Automobile club, will be held at the Weber club on Monday night, for the purpose of further discussing good roads. Every one is invited to attend and interest themselves in this problem.

## WANT OGDEN TO BE REPRESENTED

The following communication from Secretary Arthur Hooker, of the National Irrigation congress at Pueblo, Colo., was received at the mayor's office yesterday.

"Dear Sir: We are pleased to enclose herewith copy of the official call for the Eighteenth National Irrigation congress, together with certificates for the appointment of delegates to represent your people at this meeting.

"On the second page of the call you will notice that place and one thousand population are entitled to five delegates, and towns of less than two thousand population are entitled to two delegates. We hope that you will be fully represented.

"In case you do not already have in mind those who will be glad to attend, it is probable that notice of this in your papers will bring information as to who will be glad to serve as delegates.

"The holding of this great meeting is of special interest to your state, and we hope to receive early notice of your appointments.

"Respectfully, (signed) "ARTHUR HOOKER, "Secretary National Irrigation Congress."

The mayor will appoint a full representation of five delegates who will leave in time to attend every session of the congress.

## ADVERTISING PEACH DAY

The programme of attractions at the Peach Day festivities at Brigham City is very inviting this year. Special arrangements have been made for the entertainment of visitors. There will be amusements of all kinds, including baseball, a parade, dancing, concerts, etc.

Utah peaches, watermelon, and cantaloupe will be free and a plentiful supply of each is assured. This celebration always has made a tremendous hit with Ogdenites and unless this year proves an exception to the rule, the attendance from this city will be large.

The Peach Day celebrations at Brigham have established themselves with Utahns, and are looked forward to with as much pleasure and anticipation as even our state and interstate affairs.

The rates offered by the railroads are inviting and the schedule is arranged so as to accommodate almost every one, so that it is expected that a large delegation from here will join the crowd and have the time of their lives.

The Oregon Short Line has just announced its schedule of train service to and from Brigham for the annual celebration of Peach Day there. There will be three fast trains from Ogden, one at 8:30, one at 9:25 and another at 10 a. m., and the run will be made in forty-five minutes. The returning trains will leave Brigham at 3, 7 and 11 p. m.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Ogden readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

H. W. Eldredge, 398 23rd St., Ogden, Utah, says: "For a long time I suffered severely from pains in the small of my back and the unnatural condition of the kidney secretions plainly indicated that my kidneys were disordered. The trouble was worse when I exerted my strength or brought too much strain on the muscles of my back. A short time ago I read about Doan's Kidney Pills and being favorably impressed, I procured a supply from Badcon's Pharmacy. This remedy soon corrected the kidney difficulty and removed my aches and pains. Doan's Kidney Pills have helped me so greatly that I consider them worthy of recommendation."

Mr. Eldredge gave the above testimonial in July, 1906, and on July 29, 1909, he added: "I can still recommend Doan's Kidney Pills highly. They did me more good than any other kidney medicine I ever took."

## ELGIN AUTO ROAD RACES

ELGIN, Ill., Aug. 26.—Out of a pot-pourri of road races over the new 8.12 mile course here today three cars and three drivers emerged with distinguished honors. A. Livingstone, piloting a mile a minute for 203.35 miles, annexed the major event, the Illinois trophy, with a National. C. D. Buck, who drove half of his race with one spring suspension broken, captured the Kane county trophy, covering 169.46 miles in 3:04:45.79. Ahearn, who drove his own entry, a Benz, in the small car contest, took the Fox river trophy. His time for the 135.57 miles was 2:30:04.35.

Livingstone averaged 6.6 miles an hour, Buck 5.5 miles and Ahearn 5.4. The pilot of the National made the entire trip without stopping—without even hesitating, in fact.

Hearne was similarly fortunate. Buck sprung for a short time when his spring suspension broke. Ned Crane suffered a heartbreaking experience. His Staver-Chicago car had consistently worked from fourth place to second, for which he had a lead over Miller, the Warren-Detroit pilot. On the fifteenth lap, with only one more to go, the machine was disqualified because, as Starter Wagner explained, Crane's mechanic had failed to look behind to see if it were necessary to make way for some driver desiring to pass. Greiner, driving a National, was the man immediately behind, and had to swerve violently to avoid hitting the Staver-Chicago. There was but one accident and this was not serious. Alfrichter was at the wheel of a Cino, skidded into a ditch and wrenched his shoulder. The mechanic was also slightly hurt.

A crowd estimated at from 50,000 to 70,000 saw the contests. The attendance and the speed of the road, which surprised even the most sanguine, is believed to assure the annual renewal of the races.

Great interest centered in the big car races. Livingstone started in the plained, Livingstone started in the lead and was never headed. He gained a little each lap and at the finish was nearly thirteen miles ahead of the field. After the race he said that he had not pressed his machine during the last six laps. He saw that he had the race in hand and remained content with avoiding any unnecessary strain on the machine. Greiner's car was the counterpart of Livingstone's but the former lost a lap and a half when his gasoline feed pipe broke. He finished fourth in 3:42:15.31, or 21:07.10 behind the winner.

Dawson, who drove a Marmon, and Pearce, piloting a Falcarr, battled for second place during the greater part of the race.

Pearce secured this position in the fifth lap and held it for 56 miles. On the twelfth lap he dropped to fourth place. Glenawas, a Falcarr driver, and Dawson passing him. In the Kane county trophy race, Driver Schoeneck was compelled by a breakage to withdraw before half the distance had been covered. C. C. Hene's Staver-Chicago was disabled after covering

## TUNGSTENS

Are you trying to reduce your lighting bill. The hours of lighting are increasing and the long nights will soon be with us. Have you tried the wonderful lamp called the tungsten? They reduce the amount of current 40 per cent and your bills will be in proportion. Don't buy one lamp and expect to get the promised results, put in tungstens wherever you use much light then you will reduce your bills.

A 40 watt tungsten will give you 25 candlepower. Our Edison lamps use 56 watts and only give you 16 candlepower. The tungsten lamp costs more, but it more than makes up its cost in the saving of the current used. Night becomes day when tungstens are used. They are unexcelled for the home or the store in economy and brilliancy. When the sun goes down turn on the tungsten lamp—his only rival.

## WALL STREET CLOSES STRONG

NEW YORK, Aug. 26.—Higher prices prevailed at the opening of the stock market with Union Pacific, Reading, Southern Pacific and Interborough Metropolitan making gains of a point each. American Smelting, Brooklyn Transit, United States Steel and Chesapeake & Ohio were 1/2 to 3/4 better. The market wavered a bit then went on upward with the buying stimulated by the passing of the frost scare in the corn belt. Round amounts of United States Steel and some of the railroad stocks were bought but the general buying fell off and the list became dull. Union Pacific, Consolidated Gas and Chicago Great Western rose 1/2. United States Steel 1 1/4 and Atchison, St. Paul, New York Central and International Har-

The market closed dull and strong. The market developed a great deal of buoyancy and most of the grain carriers got back to the high level of yesterday before the crop scare broke the market. Advances from yesterday's closing reached 2 1/2 in Reading and Consolidated Gas 2 1/4. Union and Southern Pacific and 2 1/8 United States Steel and Interborough Metropolitan preferred.

Slightly Confused. (Human Life.)

All of us become confused and all of us mix our language sometimes, but the preparation of an old negro preacher's sermon was the greatest confusion of metaphors I have ever heard, says a traveler. When the lengthy discourse was nearing its close and he had reached his "twelfth and lastly, brethren," he wound up by the following elaborate figure:

"Everywha, brodern, we see de Almighty—all down de untrodden paths of time, we see de footprint of de Almighty hand."
